Hi Morgan,

Thanks for reaching out. I believe this photo is of the bike rack that was at a location along the west side of OFW between Market St. and Horizon Ave. The bike rack that was removed from that location many months ago was in disrepair and rusted and if I'm not mistaken also had suffered some vandalism and damage by an unknown individual causing it to be unsafe. We are still in the process of planning to renumber the OFW vendor spaces so rather than replace it and then relocate it to a more optimum spot later, we just left the location as is.

If you have any further questions please let me know.

Thanks.

Bob

Hi Bob,

This is Morgan Bostic from Councilmember Bonin's Office (we met briefly on my first day with Taylor). I hope this finds you well!

We received a call from a constituent who is concerned about a bike rack (pictures attached below) that was removed by RAP late last year. It was in front of her business located on 1415 Ocean Front Walk. She is curious about whether it will be replaced despite the vendor re-distribution/repainting? Taylor and I were brainstorming, and thought that it looked a bit like an illegal bike rack, and thought that maybe rec and parks removed it for that reason. However, we know you are much more familiar

with the context and hope you can provide clarity. Please let me know if I can provide any additional information. Thank you so much!

Warmly,
Morgan
